EN 1992-3 GL NA:2025

National Annex to

Eurocode 2: Design of concrete structures – Part 3: Liquid retaining and containment structures

Foreword

This Greenlandic National Annex (GL NA) is based on DS/EN 1992-3 DK NA:2010, which is the Danish National Annex to DS/EN 1992-3:2009.

Scope

The Annex is adapted to national, geographical and climatic conditions as well as national legislation and specifies how EN 1992-3:2009 and its corrigenda are to be applied in Greenland.

The Annex provides Greenlandic national choices.

The numbering in the Annex refers to the numbering in DS/EN 1992-3:2009 or DS/EN 1992-3 DK NA:2010.

Overview of Greenlandic national choices and complementary information

DS/EN 1992-3 DK NA:2010 is applicable with the following national choices and complementary information:

Clause	Subject	Change
DK NA	References in DK NA	National choice

National choices

References in DK NA

References in DS/EN 1992-3 DK NA:2010 to other Danish National Annexes are replaced by references to corresponding Greenlandic National Annexes. Where these do not exist, the Danish National Annexes apply.
