Introduktion til ISO/IEC 27001

5

International og europæisk standardisering

1. ISO/IEC JTC 1/SC 27:
 - IT Security techniques
2. CEN-CENELEC JTC 13:
 - Cyber Security and Data Protection

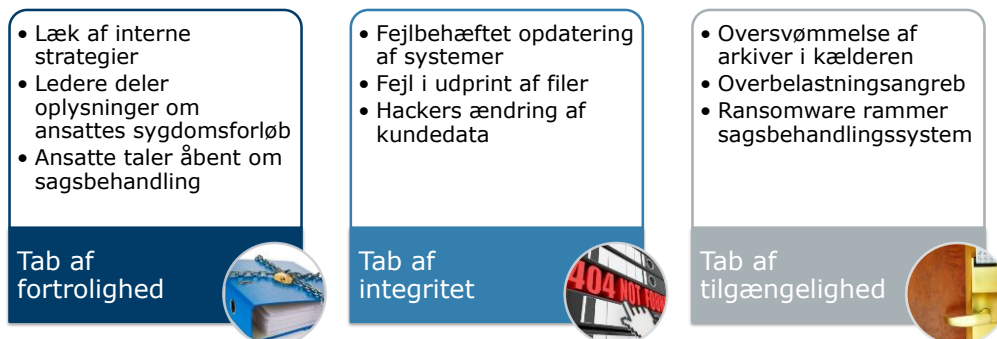

6

Informationer som skal beskyttes

7

Et ledelsessystem for informationssikkerhed

"Ledelsessystemet for informationssikkerhed bevarer fortrolighed, integritet og tilgængelighed af information ved hjælp af en risikostyringsproces og sikrer, at interessenter har tillid til, at risici håndteres på en ordentlig måde."

8

Den nationale agenda

Den fællesoffentlige digitaliseringsstrategi, 2016-2020: regioner og kommuner skal følge ISO/IEC 27001's principper.

National strategi for cyber- og informationssikkerhed, 2018: Efterlevelse af minimumskrav til ISO/IEC 27001.

Databeskyttelsesforordningen 2016: Ny persondatalovgivning fra maj 2018 med krav om dokumentation af processer, politikker, organisering og konsekvensvurderinger.

Strategi for Danmarks digitale vækst, 2018: SMV-hjælp. Privacy-kompas, Sikkerhedstjek baseret på ISO/IEC 27001. En samlet portal på sikkerdigital.dk.

ISO/IEC 27001 Oversigt

ISO/IEC 27001: Dokumentationskrav for informationssikkerhed

POLITIK OG MÅLSÆTNINGER (5.2; 6.2):	En dokumenteret informationssikkerhedspolitik, der indeholder målsætninger for informationssikkerhed
ANVENDELSESOMRÅDE (4.3):	En dokumenteret afgrænsning af ISMS'et
RISIKOMETODE (6.1.2):	En beskrivelse af risikovurderings- og håndteringsprocessen
RISIKOVURDERING (6.1.2, 8.2):	En risikovurderingsrapport
RISIKOHÅNTERINGSPLAN (6.1.3, 8.3):	En plan for håndtering af risici
SOA-DOKUMENT (6.1.3):	Et "Statement of Applicability"
MEDARBEJDERKOMPETENCER (7.2d):	Dokumentation for kvalifikationer, erfaring og uddannelse
MÅLING (9.1):	Proces for og resultat af måling af foranstaltningers effektivitet
INTERNE AUDITS (9.2):	Programmer og rapporter for interne auditeringer
LEDELSENS Gennemgang (9.3):	Rapportering til ledelsen om evaluering af inf.sikkerhed og effekten af ISMS, afvigelser og opfølgende handlinger
AFVIGELSER OG KORRIGERENDE HANDLINGER (10.1):	Registrering og håndtering af afvigelser og implementering af korrigerende handlinger

15

5 råd ved implementering

- Få ledelsens opbakning og forståelse for projektet
- Udnævn en ISMS-projektleder
- Integrer ISMS med de eksisterende processer
- Undgå integration af nye tekniske løsninger
- Involver interessenter fra hele organisationen – fra starten af projektet

Statement of Applicability (SoA)

STATEMENT OF APPLICABILITY	
OBJECTIVE The Statement of Applicability is a requirement of ISO/IEC 27001, as specified in clause 8.2.14 of ISO 27001, and is a document that describes the scope of the Information Security Management System (ISMS) and the controls that are selected to meet the requirements of the ISMS. It is a document that is used to demonstrate the effectiveness of the ISMS and to provide evidence of compliance with the requirements of the ISMS.	
STATEMENT OF APPLICABILITY

- 114 foranstaltninger fra Anneks A
- Organisationen skal gennemgå alle og begrunde til- og fravalg
- Lav tilføjelser og fravalg!
- Risikohåndteringsplanen er hovedbegrundelse for til- og fravalg
- Gældende lovgivning, aftaler og compliance-krav inddrages

Opsamling

Opsummering

Vi beskytter informationer imod tab af:

- Fortrolighed, integritet og tilgængelighed

Det handler ikke blot om it-sikkerhed

- It-systemer, de fysiske rammer og medarbejdere er alle understøttende for beskyttelse af informationer

Plan, Do, Check, Act!

- Til enhver sikkerhedsforanstaltning knytter sig en proces, som vi styrer og løbende forbedrer på

Say it, do it, prove it!

- Der forestår en paper exercise, som forklarer, hvad vi gør og som indeholder dokumentation for at, det bliver gjort
